

IntroEase | Unlocking Safe, Real-Time Care Capacity

Building a Connected Care Workforce for a Faster, Fairer Future

The Challenge: A System Stuck in Delay

The UK care sector loses thousands of care hours every week because the **right people aren't connected at the right time**.

Three barriers create this gridlock:

Bottleneck	What Happens	Why It Hurts
Capacity Mismatch	Carers exist but not where or when care is needed.	Missed visits, inconsistent continuity.
Compliance Drag	DBS, RTW & training buried in inboxes and PDFs.	Delayed starts, duplicated checks.
Manual Rostering	Legacy systems ignore skills, travel, and preferences.	Low utilisation, high burnout, higher cost.

 *Result: slower discharges, rising costs, unsafe flow.*

The IntroEase Platform: One Workflow, All Connected

Post → Verify → Match → Book → Deliver

(5 linked circles illustrating the connected workflow)

Stage	Description	Value
Post	Providers submit care needs in seconds.	Simplicity.
Verify	AI instantly validates DBS, RTW, and training.	Compliance in hours.
Match	Algorithms + manager input align skills, ETA & continuity.	Accuracy.
Book	E-sign & deploy instantly with full audit trail.	Speed & assurance.
Deliver	Workforce works sooner, smarter, and sustainably.	Safer, scalable care.

Empowering the Workforce

- **Work Sooner:** Pre-verified carers ready to start within hours.
- **Work Smarter:** Matching by skill, geography, and preferences.
- **Work Freely:** One secure registration opens access to multiple providers.
- **Work Confidently:** Continuous training & digital governance support.

 *Every worker connected, visible, and valued — using skills, time, and will to their fullest potential.*

Benefits for Providers & Commissioners

Benefit	Impact
Instant Access to Ready-to-Work Carers	No onboarding delays, faster starts.
Reduced Admin & Agency Dependence	Leaner operations, lower cost per hour.
Live Market Visibility	Real-time capacity, compliance & risk dashboards.
Stronger Governance	Audit-ready evidence for CQC & ICB assurance.

Impact Snapshot (Four Circular Icons)

Metric	Improvement
Time-to-Start	↓ 60 %
Missed Visits	↓ 35 %
Utilisation	↑ 15 %
Admin Load	↓ 50 %

Aligned with National Priorities

- **DHSC:** Digital transformation & workforce planning.
- **CQC:** Safe staffing, governance, transparency.
- **ICS/ICBs:** Hospital discharge flow & community resilience.

Outcome

IntroEase creates a **unified, ready-to-deploy workforce** — unlocking safe, dependable care capacity across the UK.

It replaces fragmentation with connection and delay with readiness.

Tagline:

“Right Carer → Right Time → Right Evidence → Right Outcome.”

Design Guidance for PDF Export: - Corporate palette: **Navy (#003366), Teal (#00A3A1), White, Light Grey (#F5F5F5).**

- Circular workflow diagram (Post → Verify → Match → Book → Deliver).
- Four circular metric icons (time-to-start, missed visits, utilisation, admin load).
- Balanced white space, clean tables, and sans-serif fonts (*Helvetica Neue / Montserrat*).
